

Bowel Prep Pictures

At the start of the
bowel prep

Colon is gradually getting cleaner

Best bowel prep!

Appearance in toilet of the best bowel prep:

- You can see to the bottom of the toilet bowl
- It is clear yellow or clear green in color
- There is little cloudiness or sediment
- There is no solid stool or brown color
- This gives your GI doctor the best chance to see and remove small polyps and lesions in your colon -- before they can become cancer!
